

DASHLIN SERMEIL

SOFTWARE ENGINEER

WORK EXPERIENCE

Software Engineer - Resilient Coders

BOSTON, MA - 01/2021 - PRESENT

- Designed and developed full-stack applications with responsive features across multiple platforms.
- Designed and built front-end and back-end web applications from concept to completion.
- Collaborated with a team of developers to build multiple modern web applications.
- Maintained detailed git history for all projects and used GitHub in a team environment.

Projects

- Slot Machine that allowed players to bet and track their wins/losses.
- Worked with a client to build their website to showcase their candle products.
- News search app built using 2 API to accept a users specific topic and location to return the recent reports within the area.
- Moodry: A platform to encourage and improve communication between child and caretaker while helping break the emotional barriers children form as they develop.

Manager - Papa Gino's

SAUGUS, MA - 06/2014 - 06/2020

- Applied performance data to evaluate and improve operations, targeted to current business conditions and forecasted needs.
- Maintained team efficiency by delegating daily activities, monitoring output and rewarding positive contributions.
- Achieved or exceeded financial goals on a regular basis by controlling expenses, optimizing schedules and regulating inventory usage.
- Increased sales by \$5000 in 2019 by establishing goals, overseeing performance and outreach to neighboring businesses.

PERSONAL PROFILE

With responsibility and determination, success will follow. Whether it be finding bugs in my program or building websites, I continue to learn and adapt. As a Software Engineer, I am using my experience with team collaboration and critical thinking to support company objectives and contribute to meaningful user experiences.
